

2023 Camping Fees

May 1st through October 31st

Our campground is designed and managed for 'family-style' camping and we encourage all campers to consider this when making reservations or plans to stay with us.

Site-load capacities are:

- 8 people (from the same household, maximum of 6 adults) per site
- 1 RV, trailer or pop-up camper and one tent is allowed per site
- 2 parked vehicles (in addition to the camping unit/rig) per site
- 2 tents are allowed on sites with no RV, trailer or pop-up

Please respect our intent with these established guidelines rather than exploiting them for personal gain. We value using an honor system with our campers.

There is a two week/14 consecutive night limit for all RV site reservations, and a five consecutive night limit for all Tent Site reservations. All households are limited to 21 nights total in a 30-day period, including those RV site reservations that utilize our camper storage program.

Please note: E&W Sites refer to the RV campsites in the park with 30 and/or 50 amp electric and water hook-ups. There are additional fees for RV sites with sewer hook-ups. Tent sites are those sites with no electric or water hook-ups, intended for tents only, no wheeled/axled camping units are allowed. There is potable water available in proximity to these sites.
